Mercara.

Respected Sir,

The General Body of the Coorg Association, Bombay, at the "KAILEMURTH" function dated the 17th September, 1961, unanimously decided that funds be raised to render relief to the unfortunate people of Coorg who were hard hit by the recent unprecedented rains.

Consequently a Special Committee was immediately set up with the President, Secretary and the Treasurer of the Coorg Association as its ex-officio members. We intend to hold a cultural show to raise funds for this purpose and the Committee is going ahead with the plans.

I request you on behalf of the Committee to grace this occasion as the President in order to make it a success. We have provisionally decided to bring up the show on the 4th proximo but this may be altered to any Saturdays/Sundays to suit your convenience. We therefore request you to let us know sufficiently in advance your wishes.

I am asked by the Committee to appraise you that the Coorg Association, Bombay is functioning in well organised manner since 1921 and would always welcome any references from you pertaining to Coorg and her people.

Yours faithfully,

President.

Dear Sir,

I hope you have not forgotten this Police Officer, to whom you issued a commendation letter in January,1958 after your visits to various places in Bijapur District.

There after I met the General twice in Virajpet and Mercara in the year 1964-65, and had talks with the him in "Roshanara," Mercara Coorg once.

I have been always quriously watching the Generals movements, talks, and paper publications and felt like going over to Mercara to see the general but time did not permit me.

I earnestly request the general to send me the Journals, Magazines or books about the Police in India, and abroad which will enrich my knowledge for efficiency.

I have still seven years of service to go in the Police,hence I beseach the General to guide me by suppling the information as and when the General feels so doing.

As I am in the Key Post now,I hope the General will be kind enough to help me to improve the efficiency by supplying me the material that is required for the same and to improve the image of the Police, in respect of "public relation".

Yours sincerely.
